

## **Sutherland Medical Pty Limited**

Monday, July 2<sup>nd</sup> 2007

Dear Valued Customer,

As of 1<sup>st</sup> July 2007, Paul Hartmann Australia Pty Limited will be reacquiring the Victorian and Tasmanian sales of their range of Continence and Woundcare Products.

These changes provide Sutherland Medical Pty Limited with a great opportunity to move away from local distribution and focus on our national business and export markets.

Sutherland Medical Pty Limited will remain as a national supplier of our range of Tubular Bandages, Soft Orthopaedic Products, Nipro products and our range of IV Administration Sets.

We have been distributing the range of Hartmann products since January 1999 and have enjoyed our time as a local Hartmann distributor and enjoyed working as part of the Hartmann Alliance.

We will be working closely with Hartmann over the coming months to assist in making this a smooth transition for customers and staff.

If you have any further queries, please do not hesitate to contact me.

Yours sincerely,

**Sutherland Medical Pty Limited**

Noel Creevey  
*Managing Director*
