- breathable, keeps foot warm but helps prevent perspiration
- colour coded for identification
- reusable, washable, long life
- low cost treatment, saves time for care staff

CICATREX® First Line Therapy Glove

TH344803

- for the treatment of burns and following skin grafts
- for the treatment of lymphoedema
- for the treatment of traumatic and surgical scarring
- fine, smooth, lightweight knit with the sheen of silk
- highly effective compression
- easy to care for

BRACES, SLINGS & GLOVES

RHIZO THUMB SPLINT

TH7090

- immobilisation splint holds thumb in an analgesic position
- fits the contours of the thumb due to patented wire stays with a spring effect
- light, comfortable and short, with Zirtex® fabric at the thumb offering thermal barrier and moisture wicking
- inner lining in Thermytex fabric, breathable and antibacterial
- two velcro straps for easy fitting and opening at the thumb column to prevent any pressure on the painful zone

THUASNE® WRIST & THUMB SPLINT

TH1335

- firm support for the thumb and wrist
- x-ray transparent stays ensuring optimum immobilisation
- triple strap system ensuring even wrist immobilisation
- self fastening strap allowing adjustment at the thumb
- models right - left
